June 24, 2008

A critical wildland fire situation continues to develop in northern California. Firefighters are battling 32 large fires in California that have burned more than 180,000 acres. New large fires were also reported in Arizona, New Mexico, and Texas.

Weather Discussion: California will be warm and dry inland today with low clouds and fog along the coast. Isolated dry thunderstorms are expected over eastern Arizona and New Mexico. Drier weather will be spreading into the area from Georgia northwest to Virginia.
