The NESDIS Cooperative Research Program has invited scientists from the Cooperative Research Centers (CIRA, CIMSS, CICS, CREST, CIOSS) to participate in a two and a half day workshop on Measuring and Modeling Aerosols. The keynote presentation will be by Dr. Bruce Hicks of NOAA ARL who will outline NOAA's aerosol prediction program. Short presentations will be intermingled with breakout sessions to plan collaborative activities to reach the program goals.

Participants should send a short 200 word abstract to Fran Holt (Fran.Holt@noaa.gov) by May 10, 2004. The meeting will be held in the Physics building (building 26) at the University of Maryland, Baltimore County.
